Research

Interests

- Environmental chemistry
- Production and application of biochar from agricultural and solid waste materials
- Carbon sequestration and climate change mitigation
- Environment friendly utilization of waste resources
- Remediation of contaminated soils and waters
- Revitalization of abandoned soils
- Wastewater treatment
- Waste management

Education

Doctor of Philosophy (Ph.D) Agricultural Chemistry, 2013

CGPA: 4.50 out of 4.50

Department of Biological Environment, College of Agriculture and Life Science,
Kangwon National University, Republic of Korea

Thesis Topic: Application of Waste Resources and Biochar for the Remediation of Contaminated Soil and Water

Master of Philosophy (M.Phil) Environmental Sciences, 2008

CGPA: 3.57 out of 4.00

College of Earth and Environmental Sciences,
University of the Punjab, Lahore – Pakistan

Thesis Topic: An Integrated Treatment of Slaughterhouse Wastewater

Master of Science (M.Sc) Applied Environmental Sciences, 2001

Marks Percentage: 82.75

Post Graduate Center for Earth Sciences,
University of the Punjab, Lahore – Pakistan

Thesis Topic: Dispersion Gradient of Free Fall Dust and Heavy Elements Concentration in Dust Along a Main Road

Master of Science (M.Sc) Chemistry (Analytical), 1999

Marks Percentage: 68.25

Department of Chemistry,
Bahauddin Zakarya University, Multan – Pakistan

Thesis Topic: A Study on Estimation of Zinc in Air, Soil, Petroleum, Pigeons and Human Blood with Reference to Traffic Density

Bachelor of Science (B.Sc) 1997

Marks Percentage: 62.87

Government College of Multan,
Bahauddin Zakarya University, Multan – Pakistan

Professional Experience	Associate Professor (Aug 2022 to present) Department of Environmental Sciences, Faculty of Biological Sciences, Quaid-i-Azam University, Islamabad, Pakistan
	Assistant Professor (Feb 2017 to Aug 2022) Department of Environmental Sciences, Faculty of Biological Sciences, Quaid-i-Azam University, Islamabad, Pakistan
	Researcher (Sep 2014 to Jan 2017) Attracting Outstanding Faculty and Researchers Program, Soil Sciences Department, College of Food and Agricultural Sciences, King Saud University, Riyadh, Saudi Arabia
	Assistant Professor (Apr 2013 to March 2014) University Institute of Biochemistry and Biotechnology, PMAS Arid Agriculture University, Rawalpindi, Pakistan
	Team Leader (Material Exploration & Manufacturing) (Sep 2011 to Feb 2013) Korea Biochar Research Centre, Kangwon National University, Republic of Korea
	Research Fellow (Sep 2009 to Feb 2010) Department of Biological Environment, College of Agriculture and Life Sciences, Kangwon National University, Republic of Korea
	Senior Scientific Officer (May 2005 to June 2009) Pakistan Council of Scientific & Industrial Research (PCSIR) Laboratories Complex, Ministry of Science and Technology, Pakistan
	Senior Lab Analyst (Dec 2003 to May 2005) Mauri Fermentation Pakistan (Pvt) Ltd. A group of companies – Australia, Lahore – Pakistan
	Analyst / Microbiologist (Sep 2003 to Dec 2003) AZ Pharmaceuticals, Kasur – Pakistan
	Analyst (Mar 2003 to May 2003) Askari Pharmaceuticals, Kasur – Pakistan
	Assistant Quality Control Incharge (Dec 1999 to Mar 2003) Mian Brothers Labs (Pvt) Ltd, Lahore – Pakistan

Funded Projects	Role	Title	Duration	Amount	Funding agency
	Principal Investigator	Electrochemical Enhancement of Adsorption Process with Biomass-derived Modified Electrodes for Carbon Capturing	12 months	530 USD	National Cleaner Production Center, Pakistan
	Principal Investigator	Soil water conservation and enhanced crop productivity under deficit irrigation system	09 months	2000 USD	Eco-Peace Leadership Center, Kangwon National University, Korea
	Assistant Project Director	Establishment of University Institute of Biochemistry and Biotechnology	60 months	3.418 M USD	Higher Education Commission of Pakistan
	Co-Researcher	International Research Group of conversion of bio-waste into biochar: production, application and social implication	12 months	400,000 USD	King Saud University, Saudi Arabia
	Co-Researcher	International Research Group of application influence of biochar	12 months	400,000 USD	King Saud University, Saudi Arabia

	produced from different sources on dynamics of CO ₂ -C efflux, physical and biochemical properties of sandy calcareous soils
Supervised Thesis Research	1. PhD; Engineered char materials derived from organic waste and their application to remediate water and soil polluted with anionic contaminants (2018 – 2023) 2. PhD; Engineered biochar and biowaste: synthesis, characterization and application to decontaminate soil and water (2014 – 2017) 3. MPhil; Solar-Driven Desalination of Water with Biochar-Based Evaporators (2025 – 2026) 4. MPhil; Effect of Biochar, Functionalized Biochar, and Hydrochar on Carbon Sequestration in Soil (2024 – 2025) 5. MPhil; An Integrated Remediation Approach for Total Petroleum Hydrocarbons (TPH) and Cadmium (Cd) Co-contaminated Soil (2024 – 2025) 6. MPhil; Mapping biochar suitability in agricultural soil: A GIS and machine learning-driven approach (2023 – 2025) 7. MPhil; Comparative and synergistic effects of biochar and its composite with industrial ash for the remediation of lead contaminated mining soil (2022 – 2024) 8. MPhil; Remediation of chromium contaminated soil with biochar and its composites with zeolite (2022 – 2024) 9. MPhil; Removal of chlorpyrifos from water by coconut straw and coconut shell-derived biochar (2022 – 2024) 10. MPhil; A comparative study of foliar and root-zone application of various nano-biochars to improve plant productivity (2022-2024) 11. MPhil; Uptake and effect of nano bone char on <i>Syngonium podophyllum</i> under hydroponics and soil systems (2021 – 2023) 12. MPhil; Production and application of nano-bonechar for immobilizing fluoride in naturally contaminated soil and it's potential towards climate smart agriculture (2021 – 2023) 13. MPhil; Treatment of abattoir wastewater by using an integrated approach (2021 – 2023) 14. MPhil; Chemically modified biochars for the removal of ibuprofen and diclofenac from water (2020 – 2022) 15. MPhil; Removal of tetracycline from aqueous solution by biochar derived from bagasse via co-pyrolization with polythene (2020 – 2022) 16. MPhil; Impact of biochar on the physicochemical properties of sandy loam soil under high temperature (2020 – 2022) 17. MPhil; Carbon fractionation and sequestration in soil amended with fruit waste-derived biochar (2019 – 2021) 18. MPhil; Comparative effect of sugarcane bagasse-derived biochar and compost on productivity of alkaline soil (2019 – 2021) 19. MPhil; Sorption of naphthalene and phenanthrene in water by different biochars (2019 – 2021) 20. MPhil; Immobilization of lead and copper in firing range soil using bone-powder and bone-char (2018 – 2020) 21. MPhil; Stabilization of lead and copper in the e-waste contaminated soil using sludge derived biochar (2018 – 2020) 22. MPhil; Revitalization of saline soil by electrokinetic remediation (2018 – 2020) 23. MPhil; Production of compost and biochar from water lettuce residues and their application in soil for improving plant growth (2017–2019) 24. MPhil; Synthesis of slow release fertilizer and its application in soil for plant productivity (2017 – 2019) 25. MPhil; Designing and optimization of a cost-effective pyrolyzer for biochar and bio-oil production from biowaste (2017 – 2019) 26. MPhil; Removal of lead (Pb) and cadmium (Cd) from water by modified biochars derived from peanut shells (2017 – 2019) 27. MPhil; Soil water conservation and enhanced plant productivity under deficit irrigation system (2017 – 2019) 28. MPhil; Effect of orange peel derived biochar on herbicides mobility in agricultural soil (2017-2019)

29. **MPhil**; Enhanced removal of chromium(VI) from tannery industry wastewater and soil remediation with biochar (2017-2019)
30. **MPhil**; Adsorption of moxifloxacin and ofloxacin from water using biochars produced from different feedstock (2016-2019)
31. **MPhil**; Carbon negative potential of biochar derived from solid waste in saline soil (2016 – 2018)
32. **MPhil**; Potential of saw dust- and rice husk-derived biochars on leaching behavior of arsenic in contaminated soil (2016 – 2018)
33. **MPhil**; Nitrates and phosphates removal from water by biochar and its application to soil as fertilizer (2016 – 2018)
34. **MPhil**; Revitalization of saline soil with acidic biochar derived from municipal solid waste (2016 – 2018)
35. **MPhil**; Quality assessment of some raw eaten vegetables through study of associated microbial pathogens (2013 – 2014)
36. **MPhil**; Biosorption of metals by *Saccharomyces cerevisiae* (2006 – 2008)
37. **MPhil**; Biosorption of metals by *Aspergillus oryzae* (2006 – 2008)
38. **MPhil**; Synthesis of activated carbon from coal by thermal activation and its application on wastewater treatment (2007 – 2008)
39. **MPhil**; Production of activated carbon from saw dust and its application on wastewater treatment (2007 – 2008)
40. **MSc**; Evaluating PAHs emission during biochar production via pyrolysis of biomass and PAHs catalytic oxidation by Pd/Al₂O₃ catalyst (2015 – 2017)
41. **MSc**; Residuals of veterinary antibiotics in animal wastes and the effect of application of biochar for their retention onto soil (2015 – 2016)
42. **MSc**; Residuals of veterinary antibiotics in animal wastes and the effect of application of biochar for their retention onto soil (2015 – 2016)
43. **MSc**; Extraction of fatty material from sludge of food industry and its characterization (2005 – 2007)

Courses Taught

1. **MPhil/PhD**; Research Planning & Scientific Writing
2. **MPhil/PhD**; Soil Remediation
3. **MPhil/PhD**; Topics in Contaminant Environmental Hydrology
4. **MPhil/PhD**; Advanced Research Methods in Environmental Science
5. **MPhil**; Environmental Biochemistry
6. **MSc**; Pollution Control Technologies
7. **MSc**; Waste Management
8. **BS**; Research Methods in Environmental Science
9. **BS**; Pollution Control Technologies
10. **BS**; Solid Waste Management
11. **BS**; Introduction to Earth Sciences
12. **BS**; Physical Chemistry

Conference Proceedings

1. Carbon fractionation and sequestration in soil amended with fruit waste-derived biochar
Iflah Nadeem and **Mahtab Ahmad**
1st International Conference on Climate Change and Environment, Quaid-i-Azam University, Islamabad, Pakistan (February 2 – 3, 2022)
2. Biochar induced changes in soil properties affected immobilization/mobilization of metals/metalloids in contaminated soils
Mahtab Ahmad
1st International Conference on “Soil and Crop Health in Changing Climate”. MNS-University of Agriculture, Multan – Pakistan (November 28 – 29, 2018)
3. Soil Water Conservation and Enhanced Plant Productivity under Deficit Irrigation System
Mahtab Ahmad
Asia-Pacific Environment Forum 2018, Chuncheon, Korea (October 15 – 18, 2018)
4. Environmental Issues of Pakistan
Mahtab Ahmad
Asia-Pacific Environment Forum 2018, Chuncheon, Korea (October 15 – 18, 2018)
5. Impact of Biochar Properties on Metal Mobility and Microbial Community in Contaminated Soil
Mahtab Ahmad, Sang Soo Lee¹, Byung-Yong Kim, Young Han Lee, Yong Sik Ok
CLEAR 2014, 2nd International Conference on Contaminated Land, Ecological Assessment and Remediation, Chuncheon, Korea (October 5-8, 2014)
6. Pyrolysis Condition Affected Sulfamethazine Sorption by Tea Waste Biochars
Anushka Upamali Rajapaksha, Meththika Vithanage, Ming Zhang, **Mahtab Ahmad**, Dinesh Mohan, Scott X. Chang, Yong Sik Ok
CLEAR 2014, 2nd International Conference on Contaminated Land, Ecological Assessment and Remediation, Chuncheon, Korea (October 5-8, 2014)
7. Effects of Biochar, Cow Bone and Eggshell on Pb Availability to Maize in Contaminated Soil Irrigated with Saline Water
Yaser A. Almaroai, Adel R. A. Usman, **Mahtab Ahmad**, Deok Hyun Moon, Young Kyoo Joo, Sang Soo Lee, Yong Sik Ok
CLEAR 2014, 2nd International Conference on Contaminated Land, Ecological Assessment and Remediation, Chuncheon, Korea (October 5-8, 2014)
8. Lead immobilization and phytoavailability in small arms range soil by mussel shell, cow bone and biochar: X-ray absorption fine structure spectroscopy study
Mahtab Ahmad, Sang Soo Lee and Yong Sik Ok
1st International Conference on Contaminated Land, Ecological Assessment and Remediation. Hangzhou, China (Nov 4 – 8, 2012)
9. Effects of oyster shell and eggshell on immobilization of Cd and Pb in agricultural soil: Long-term incubation study
Jung Eun Lim, **Mahtab Ahmad**, Sang Soo Lee and Yong Sik Ok
1st International Conference on Contaminated Land, Ecological Assessment and Remediation. Hangzhou, China (Nov 4 – 8, 2012)
10. Lead immobilization and soil quality improvement in contaminated and acid soils by biochar
Deok Hyun Moon, Yoon-Yong Chang, Sang Soo Lee, **Mahtab Ahmad**, Yong Sik Ok, Mahmoud Wazne and Hoon Roh
1st International Conference on Contaminated Land, Ecological Assessment and Remediation. Hangzhou, China (Nov 4 – 8, 2012)
11. Removal of antibiotics in water using biochars derived from various biomass
Se Hee Jeong, Hae Won Kim, **Mahtab Ahmad**, Jung Eun Lim, Sang Soo Lee and Yong Sik Ok
1st International Conference on Contaminated Land, Ecological Assessment and Remediation. Hangzhou, China (Nov 4 – 8, 2012)
12. Biochar amendment decreased soil Pb availability and phytotoxicity in military shooting range in Korea

-
- Mahtab Ahmad**, Sang Soo Lee and Yong Sik Ok
The 4th IBI Biochar Congress in Beijing, China (Sep 16 – 20, 2012)
13. Effects of soybean stover and peanut shell-derived biochar properties on TCE adsorption in water
Mahtab Ahmad, Sang Soo Lee and Yong Sik Ok
The 4th IBI Biochar Congress in Beijing, China (Sep 16 – 20, 2012)
 14. Biochar derived from poultry manure immobilized Pb and improved soil quality in contaminated agricultural soil
Jung Eun Lim, Byeong Gu Gi, **Mahtab Ahmad** and Yong Sik Ok
The 4th IBI Biochar Congress in Beijing, China (Sep 16 – 20, 2012)
 15. Efficacy of soybean stover-derived biochar for antimony removal from water
Anushka Upamali Rajapaksha, Meththika Vithanage, **Mahtab Ahmad** and Yong Sik Ok
The 4th IBI Biochar Congress in Beijing, China (Sep 16 – 20, 2012)
 16. Potential of biochar derived from invasive plant (burr cucumber) for the removal of veterinary antibiotics from carcass disposal sites in Korea
Se Hee Jeong, Hae Won Kim, **Mahtab Ahmad**, Yong Sik Ok
The 4th IBI Biochar Congress in Beijing, China (Sep 16 – 20, 2012)
 17. Phytoremediation – A reliable approach to clean-up metal contaminated soils
Yong Sik Ok, Yaser A. Almaroi, **Mahtab Ahmad**, Sang Soo Lee and Jae E. Yang
2012 International Forum on Green Technology and Phytoremediation for Contaminated Sites at Taipei, Taiwan (Jun 25, 2012)
 18. Effects of pyrolysis temperature on Soybean Stover and peanut shells derived biochar properties and TCE adsorption in water
Mahtab Ahmad, Sang Soo Lee, Xiaomin Dou and Yong Sik Ok
2011 International Symposium on Biochar for Climate Change Mitigation & Soil and Environmental Management at Kangwon National University, Republic of Korea (Dec 8 – 9, 2011)
 19. Modeling antimony sorption onto soybean biochar
Meththika Vithanage, Anushka Rajapaksha, Kushani Mahatantila, **Mahtab Ahmad** and Yong Sik Ok
2011 International Symposium on Biochar for Climate Change Mitigation & Soil and Environmental Management at Kangwon National University, Republic of Korea (Dec 8 – 9, 2011)
 20. Efficacy of soybean-stover derived biochar for the removal of arsenic and antimony from aqueous solutions
Anushka Upamali Rajapaksha, Meththika Vithanage, Hasintha Wijesekera, **Mahtab Ahmad** and Yong Sik Ok
2011 International Symposium on Biochar for Climate Change Mitigation & Soil and Environmental Management at Kangwon National University, Republic of Korea (Dec 8 – 9, 2011)
 21. Pb immobilization in an army firing range soil using soybean stover biochar
Deok Hyun Moon, Yong Sik Ok, **Mahtab Ahmad**, Yoon Young Chang
2011 International Symposium on Biochar for Climate Change Mitigation & Soil and Environmental Management at Kangwon National University, Republic of Korea (Dec 8 – 9, 2011)
 22. Effects of pyrolysis temperature on Soybean Stover and peanut shells derived biochar properties and TCE adsorption in water
Mahtab Ahmad, Sang Soo Lee and Yong Sik Ok
2011 International Symposium & Annual Meeting of the KSABC at Jeju, Republic of Korea (Oct 20 – 22, 2011)
 23. Characterization and TCE adsorption capacities of biochars derived from a variety of feedstocks
Mahtab Ahmad, Sang Soo Lee and Yong Sik Ok
KSEA's 30th Anniversary International Symposium on Environment and Food Safety for the Future Generation at Jeju, Republic of Korea (Jul 7 – 9, 2011)
 24. Immobilization of lead in a Korean military shooting range soil using eggshell waste: X-ray absorption fine structure spectroscopy investigation
Mahtab Ahmad and Yong Sik Ok

-
- 2011 Annual Meeting of the Korean Society of Soil Science and Fertilizer at Moju, Republic of Korea (May 19 – 20, 2011)
 25. Immobilization of heavy metals in shooting range soil using lime based waste materials
Mahtab Ahmad, Ahmed Azizeldin Abdelhafez and Yong Sik Ok
2010 SETAC Asia/Pacific Meeting at Guangzhou, China (Jun 4 – 7, 2010)
 26. Lead immobilization in military shooting range soil using eggshell waste
Mahtab Ahmad, Sang Soo Lee and Yong Sik Ok
7th International AFAS Joint Symposium between Korea and Japan. Current Status and Perspectives of Agriculture, Forestry, and Animal Sciences in 2010 at Chuncheon, Republic of Korea (Nov 11, 2010).
 27. Lime-based heavy metals immobilization in outdoor shooting range soils in South Korea
Mahtab Ahmad, Deok Hyun Moon, Sang Soo Lee, Dennis G. Grubb and Yong Sik Ok
2010 Annual Meeting of the Korean Society of Soil Science and Fertilizer at Hongcheon, Republic of Korea (May 6 – 7, 2010)
 28. Effects of natural and calcined oyster shell on Cd and Pb immobilization in the contaminated soil
Mahtab Ahmad, Jung Eun Lim, Jae E. Yang and Yong Sik Ok
The 9th International Conference of the East and Southeast Asia Federation of Soil Science Societies at Seoul, Republic of Korea (Oct 27, 2009)
 29. Dispersion gradient of free fall dust and heavy metal elements concentration in dust along main road
Mahtab Ahmad, Muhammad Usman, Nasir Ahmad and Tahira Shafiq
6th International and 16th National Conference of Chemistry at Bahuddin Zakariya University, Multan, Pakistan (Apr 4 – 6, 2006)
-

Trainings / Workshops

1. Member of the organizing committee of International Conference on Waste Business and Management held on Sep 12 – 13, 2023 at Quaid-i-Azam University
 2. Member of the organizing committee of 1st International Conference on Climate Change & Environment held on Feb 2 – 3, 2022 at Quaid-i-Azam University
 3. Training Session on Integrating IEEE eBooks & eLearning Courses in your curriculum: A dedicated session for lecturers held on Nov 26, 2024
 4. Session on Choosing the Right Journal: Leveraging Journal Citation Reports to Boost Research Impact held on Oct 18, 2024 by Clarivate in partnership with Higher Education Commission Pakistan
 5. Webinar on Learning journal expectations and decision making to improve your manuscript submissions held on 18 July 2024 by LetPub Learning Nexus
 6. IEEE Authorship and Open Access Symposium on Tips and Best Practices to Get Published from IEEE Editors held on May 09 2024 by Higher Education Commission Pakistan
 7. Webinar on Publishing Open Access in 2024 held on 11 Jan 2024 by LetPub Learning Nexus
 8. Training Session on ASTM COMPASS Training-2 held on 28 Nov 2023 by Higher Education Commission Pakistan
 9. Training Session on Assessing Wiley Journals and Publication Tips for Authors and Researchers held on 15 Nov 2023 by Higher Education Commission Pakistan
 10. Training Session on ASTM COMPASS Training-1 held on 14 Nov 2023 by Higher Education Commission Pakistan
 11. Webinar on Navigating the pathways of publishing in High-quality journals by using Scopus held on 10 Oct 2023 at Pakistan State Universities
 12. Webinar on Navigating the pathways of publishing in High-quality journals held on 26 Sep 2023 at Pakistan State Universities
 13. Training Session on Wolters Kluwer OVID Database held on 21 Sep 2023 by Higher Education Commission of Pakistan
 14. Training Session on Incorporating IEEE Xplore resources into your teaching: A dedicated session for lecturers held on 11 May 2023 by Higher Education Commission Pakistan
